

DAVID PACHECO

SYSTEMS ENGINEER

ABOUT

I am a patient person, with good interpersonal and technical skills. Regarding software development, I have experience in personal and freelance projects in Frontend and Backend roles. I also have 4 years of experience working at the IDRD.

EXPERIENCE

IDRD - CICLOVÍA

During the 4 years I worked on the Bogotá's Ciclovía . I was involved in many situations in which I had to deal with its users, always in an assertive and effective manner. From giving directions and locating people, both local and foreign, within the city to caring for health cases of multiple severities. Additionally, I was second in command within the special events area, for about two years I was the central axis of all the events that happened within it, dealing with people of all types and coordinating them in an assertive and effective manner.

METAS

- International relations with events, tours of foreign leaders and Ciclovia international
- Creation of Ciclovía's stand in Salón del ocio y la fantasía (SOFA)
- Winner of Guardian of the Month
- Communication and first aid skills mainly

SOLUCIONES HORIZONTALES BOLIVAR

Developed and launched a management company website, significantly enhancing the firm's online presence. This led to increased client engagement and streamlining operations. My role showcased my ability to create impactful digital solutions using the best coding practices and drive the company's modernization.

GOALS:

The new clients for the company increased in 23%.

EDIFICIO BANCO GANADERO

Designed and launched a website for a commercial building , which played a pivotal role in promoting the offerings. The website effectively showcased the building features and benefits, leading to increased inquiries and stakeholder engagement. This endeavor highlighted my capacity to create compelling online platforms that drive interest and investment in real estate ventures.

GOALS:

The spaces offer by the building's management are now occupied in a 100%. The possible clients has increased in 43%.

RANDOM ADDRESS GENERATOR

Conceived and brought to life a personal tourism project centered around the vibrant city of Bogota. The core idea revolves around exploring the city from random starting points, uncovering the authentic, everyday life of its diverse neighborhoods. This project celebrates my passion for sharing the genuine cultural experiences of Bogota with visitors and locals alike, offering a unique perspective on the city's hidden gems.

PORTFOLIO

As a frontend developer, I've meticulously crafted my personal portfolio to showcase a collection of web projects that exemplify my expertise. Through a combination of intuitive design and responsive user interfaces, I've created web solutions that seamlessly connect form and function. My portfolio not only serves as a testament to my skills but also as a living canvas where I bring ideas to life through code, demonstrating my commitment to the world of web development.
